MARTÍN KUN

JAVA DEVELOPER

PERSONAL PROFILE

A few years ago I was looking to turn my professional life around and thanks to my growing curiosity about application development I discovered my passion for programming. Since then I am constantly learning about new technologies and skills that help me perform better in the tasks I do. I am currently involved in a freelance project and I am looking for an opportunity to work in a company as a developer.

Age: 32
Location: San Carlos de Bariloche (Río Negro - Argentina).
